

JACKSONVILLE
UNIVERSITY

JU DUAL ADMISSIONS APPLICATION

A student wishing to participate in the pre-medical Dual Admission program between **Jacksonville University and Nova Southeastern University Doctor of Osteopathic Medicine Program** must complete this **JU Dual Admissions Application** after acceptance to the Jacksonville University undergraduate program and at least 12 months before JU graduation.

Fall Semester Deadline for Dual Admissions Application: November 1st
Spring Semester Deadline for Dual Admissions Application: March 15th

Seniors/students within 12 months of their expected JU graduation that have not met the above application deadlines can submit a written petition to the Pre-Health Committee requesting that they be permitted to apply. Absolutely no dual admissions can be accepted after a student has graduated.

Note: Students must also complete the Nova Southeastern University College of Osteopathic Medicine Application and provide all requested materials via the American Association of Colleges of Osteopathic Medicine (AACOMAS) (<https://aacomas.liasoncas.com/>) by the deadline established by Nova for the year the student wishes to enter Nova's osteopathic program. Submission of MCAT scores and application fees to Nova is also required and further described on their website (<http://medicine.nova.edu/index.html>).

Completion of this JU Dual Admissions Application is **NOT** sufficient in and of itself to guarantee acceptance to Nova's College of Osteopathic Medicine. Additionally, completion of this JU Dual Admissions Application does not obligate the student to attend Nova Southeastern.

Requirements for successful application to the JU Dual Admissions program include the following:

- Cumulative GPA of 3.5 or higher;
- Completion of the MCAT before August of the student's senior year;
- Total MCAT score at or above 500 with 125 or above in each category

Prior to matriculation, students accepted to the D.O. 4 + 4 Program must complete the following pre-requisites or an NSU-COM acceptable equivalent with a grade of "C" or higher:

- | | |
|---|---|
| 8 semester hours of Biological Sciences w/ lab | 4 semester hours of Physics w/ lab |
| 8 semester hours of General Chemistry w/ lab | 3 semester hours of Biochemistry |
| 6 semester hours of Organic Chemistry w/ lab | 6 semester hours of English/Humanities |

Complete all parts of this application. Please save this form electronically (add your resume, essay and special circumstances as requested below in subsequent pages – all one document; name your file LAST NAME, FIRST NAME, NOVA APP, and DATE, i.e. Smith John Nova App 04012014.docx) and email (subject line: Nova Dual Admission Application) to kconway2@ju.edu AND print and sign a hard copy and submit to Division office associate (MP132).

Questions should be directed to any member of the Pre-Health Committee.

Have you ever matriculated in or attended any other school following high school graduation?

Yes

No

If yes, please submit unofficial transcripts from any and all post-secondary schools, colleges and universities to the JU Pre Health Committee with this application.

Were you ever required to leave any college or denied readmission because of conduct or academic deficiencies?

Yes

No
