

VISION & MISSION

Vision:

To be a local, regional, national and international leader for excellence and innovation in entry-level doctoral occupational therapy education, practice and scholarship.

Mission:

It is our Mission to prepare our graduates as transformative, culturally competent, life-long learners demonstrating excellence in leadership, ethics, practice and scholarship to promote full participation in meaningful occupations, health and wellness for individuals, groups and populations.

STRATEGIC PRIORITIES

Education and Teaching

1. Deliver high-quality education to prepare diverse students for current and emerging areas of practice.

Research and Scholarship

2. Increase scholarship and secure extramural and intramural funding.

Service

3. Strategically align faculty and student service activities with Department, School, and University goals.

Professional Development

4. Support faculty with educational, training, continued competence and mentoring opportunities.

Program Development

5. Increase the impact and reach of the Department of Occupational Therapy both nationally and internationally.
