

Phin'tastic Accomplishments

In April, College of Law Dean Nick Allard, Esq. submitted a book review, requested by the ABA Journal, of Dr. Patricia Salkin's, "May It Please the Campus: Lawyers Leading Higher Education." The book draws from a study and analysis of lawyers in academic leadership positions from colonial times to the present.

College of Law Dean Nick Allard, Esq. was recently featured in the Winter edition of *The American Oxonian* with a piece entitled "Lessons Along the Long and Winding Rhodes," which draws from four decades and almost 1000 pages of Allard's published writings in the TAO journal following the lives of his own cohort of Rhodes Scholars classmates.

Dr. Bradley McKibben, Associate Professor of Clinical Mental Health Counseling, has had his latest manuscript accepted for publication and is available now online: *Borders, L. D., Dianna, J. A., & McKibben, W. B., Clinical Supervisor Training: A Ten-Year Scoping Review Across Counseling, Psychology, and Social Work. The Clinical Supervisor.*

Professor Ron Edelen, Assistant Professor of Visual Design, was awarded a Bronze Addy for his work on the Burj Khalifa in Dubai by the 2023 AAF Addy Awards in San Francisco. Professor Edelen's work was recognized in the category of Gorilla Marketing. His award-winning immersive motion graphic narrative tells the story of Snowflake's global reach in data sciences while making use of the world's largest LED screen on the world's tallest building. Professor Edelen worked with global advertising firm Skonato to help design and animate a series of immersive water simulations for cloud database company MariaDB. He also produced and edited a multi-channel auditory experience including ocean waves and underwater soundscapes. Among other activations, the work was displayed on large format displays throughout the Los Angeles International Airport (LAX).

Dr. Michael Justiss, Associate Professor of Occupational Therapy, has been inducted into the Roster of Fellows for the American Occupational Therapy Association at the National AOTA conference this past April.

Associate Professor of Philosophy, Dr. Matt Groe of
